Afternoon course selection must be made by health care discipline; please select the appropriate track.

This full day education program offers up to 7 continuing education hours as required by many national, state and local licensing boards and professional organizations. Application is being made to the BRPT for CTSEs for Sleep Technologists and to the AARC for CRCEs for Respiratory Therapists. Save your course outline and certificate of completion, and contact your own credentialing board or licensing organization for specific filing requirements other than those listed above.
